anthology **Raise**

Put your data to work to raise engagement and giving

Enable curated relationships with your constituents through a next-generation advancement CRM. Do more than just display your data — use built-in analytics to tailor strategies and maximize focus.

Key Capabilities:

Efficiency through built-in automations

Relationship management in one place

A configurable platform built on Microsoft Dynamics

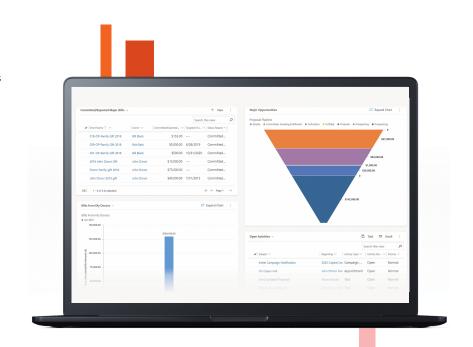

Next steps and tasks tailored to each user

Workflows to improve receipting, matching gift, and stewardship

Increased constituent engagement through Anthology Encompass

Enhance your donor and constituent experience

Build deeper connections through more personalized communications and solicitations — while saving time through automations.

Identify giving trends

Easily see giving trends, solicitation pipelines, and more — in configurable, real-time dashboards.

Deepen prospect management and constituent engagement

Combine Anthology Raise with **Anthology Encompass** to handle all aspects of constituent relationships in one place. Manage prospects, achieve more efficient and effective solicitation, and increase engagement.

Achieve your advancement goals on the go

A streamlined mobile experience at your fingertips allows you to focus on actions and outcomes — while supporting all your advancement CRM needs from anywhere, anytime. Strengthen constituent relationships and go even further using **Anthology Reach**.
