

# Where world class finance meets higher education success.

Stay in control of the processes critical to sound fiscal management. Whether your institution has one campus or 100, this feature-rich program brings together finance and Human Capital Management in one solution to help you focus on your learners.

## Key Capabilities:

Faculty management, contracts and administration

Data visualization, reports and analytics

Position control and budgeting

Better budgeting

Faculty and program ROI

Human capital management

## **Anthology Finance & HCM in Action**

"The Expense Management module has saved us significant time processing travel and expenses vs. our previous manual processes, making our business office more efficient in this area."

### **Porter and Chester Institute**

## **Want to discover more about Anthology Finance & HCM?**

Connect with us at [anthology.com/finance-and-hcm](https://anthology.com/finance-and-hcm)

### **Lead with world-class technology**

Never again wonder if you need an upgrade, as our solution is built on a state-of-the-art finance system by Microsoft and optimized for higher education by Anthology.

### **Benefit from tailored practices**

You'll discover and use business practices unique to non-profits and higher ed, like fund accounting, grants management, faculty contracts and position control.

### **Your time is money**

Keep your team streamlined and on track with tight campus system integrations to ensure smooth operations and allow a real-time analysis of data.

### **People are your greatest asset**

With stronger data visibility, you can make sure you provide your greatest assets—the faculty, staff and administrators—with the resources they need to improve workforce functions in HR, payroll, talent acquisition and more.
