

# Persistent and prescriptive planning for student success.

Gain a comprehensive view of each student's experience and performance to build a better retention and success strategy. Create personalized action plans for students with continuously updated data to further refine predictions, scoring and prescriptive actions.

## Key Capabilities:

Robust personalized journeys

Highlighted first-year experiences

Central communications

Student success action plans

Assistance for first-gen students

Improved recruitment and retention

## **Anthology Succeed in Action**

"We selected Anthology to manage Gonzaga's student lifecycle and enable us to deliver on our high-touch student engagement commitment. With this latest implementation, we're that much closer to realizing our vision of more impactful and personalized messaging for the entire student body."

### **Jim Angelosante**

Vice President for Administration

## **Start with success right out the gate**

Tailored journeys for students begin from their first inquiry right through matriculation, ensuring they are guided and supported every step of the way.

## **Empower advisors and counselors**

Straightforward dashboards and robust analytics let your team save time, organize work and manage student insights and experiences in one place, helping prioritize students that need help the most.

## **Keep students informed and involved**

Organized workflows from staff and faculty benefit students by clearly communicating on their personalized academic journey, helping bolster their engagement.
