

Omatic Integration Solution for Encompass from iModules and Raiser's Edge® / Raiser's Edge NXT®

MAINTAIN CONTROL

Decide which data flows between systems, when, & how.

SAVE TIME

Sync data between Encompass from iModules and Raiser's Edge in minutes.

ELIMINATE ERRORS

Automate business rules and prevent duplicates.

Integrate data from Encompass from iModules and Raiser's Edge to get a 360-degree view of your supporters. Use these insights to boost your fundraising effectiveness.

How effective can your fundraising efforts truly be without a complete picture of your supporters? How can you develop impactful campaigns without a full understanding of their behavior? In order to deliver the personalized experience that your supporters have come to expect in this digital world, you need data that's centralized and clean.

With Omatic's Integration Solution for Encompass and Raiser's Edge, you can seamlessly integrate your fundraising, communications, and event information to eliminate the data 'blind spots' caused by disconnected systems. And those duplicates that are inevitable when syncing data? We've got you covered there, too.

Discover the most flexible and robust way to integrate, map, clean, and sync your Encompass data with Raiser's Edge. Empower your organization with this direct and flexible integration that enhances your online and mobile fundraising.
