

# Empower learner choice. Enhance learning environments.

Create more inclusive learning environments by making digital course content more accessible for all. Improve the experience of every student and instructor by giving them the ability to tailor that experience to their specific needs and preferences.

## Key Capabilities:

Accessible digital course content for more inclusive learning environments

Instructor feedback and guidance for course content

Alternative formats generation and accessibility checking

Institution-wide reporting

## Empower your students with choice

Give learners the flexibility of choosing the most effective way to interact with digital content to meet their own needs and challenges.

## Gain feedback and insights

Get recommendations and provide guidance for instructors to improve digital content and build toward a sustainable change in behavior.

## Enable data-driven decisions

Have a deep understanding of the institution's performance based on reports, discover continuous improvement opportunities, and track progress over time.

## Boost content engagement

Improve usability and readability of learning materials best suited for students' learning preferences and devices.

## Deliver personalized experiences for students

Level up the learning experience of students by building more inclusive digital environments and making content more accessible for all.

## Anthology Ally in Action

"We're on a journey with accessible content that hasn't entirely been about legislative compliance. It's been about making better content and improving the student experience. With [Anthology] Ally, we've had such a positive experience, it's the right partner on the road."
