# Work Smarter, Not Harder, with Robust Integrations

"Anthology Portfolio integration is a game changer. It has addressed student confusion, streamlined data collection, and increased program effectiveness. The assessment process is now embedded into the existing academic structure, saving time for the student, the professor, and the assessment team."

Oral Roberts
University Portfolio Administrator

Streamline workflows

- Flexible options for Single Sign-On (SSO) for students and faculty via the LMS and campus portals

- Faculty can avoid duplicate work by passing grades to the LMS gradebook directly from Portfolio

- Streamlined edTPA® process with up-to-date, pre-loaded structures and guides, as well as in tool transfer of candidate portfolios to Pearson from Portfolio

- Generation of originality report and score by faculty and students through Turnitin integration

- Stay organized with file import for assignments from OneDrive, Google Drive, and Dropbox

Grade Pushback

Easily populate student and course information

- Portfolio integrates with all major LMS platforms certified by Learning Tools Interoperability® (LTI) and supports enhanced API integration with Blackboard

- Automatic user account creation and renewal via the LMS integration, eliminating the need to duplicate course structures and rosters each semester

- Easily import data to create users and department structures, and to populate student attributes for robust reporting across your programs and institution

- Leverage public API to automate the import of user information and attributes, as well as experiential learning placement details and updates in bulk

Key Capabilities

Customizable, Streamlined Authentic Assessment Processes

Seamless LMS Integration

Robust Learner Feedback Options

Large-Scale Experiential Learning Management

Meaningful, Multi-Level Reporting

Flexible Templates to Capture and Share the Learning Journey

Connect more with the Anthology Assessment Ecosystem

anthology Planning

Anthology Portfolio results are easily integrated into **Anthology Planning** assessment reports, allowing colleges and programs to seamlessly relate learning assessment data to the institutional reporting structure without duplicating effort.

anthology Insight

Anthology Portfolio assessment results are connected to other datasets in **Anthology Insight's** dashboards and analytics, which broadens your ability to see the impact of campus-wide patterns and trends.

anthology Milestone

Recognize learner skills and achievements in Anthology Portfolio by automatically awarding badges in **Milestone**.
