

# Beyond CRM — a lifecycle engagement solution for higher education

Insights, engagement, and process automation from recruitment to graduation for a seamless and personalized student experience that starts on day one.

## Reach every student at every stage

Manage admissions and enrollment, student success, outreach and communications, and institutional advancement with the most comprehensive CRM and lifecycle engagement solution for higher education.

Marketing and communications

Student success and outreach

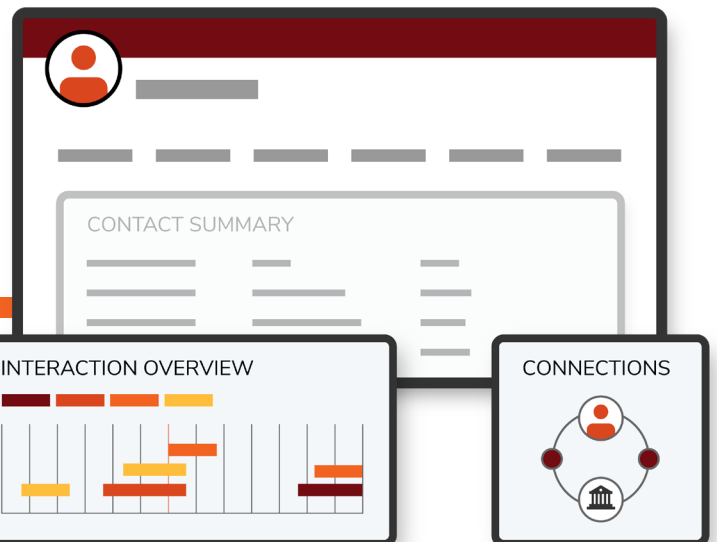

Admissions and enrollment

Alumni relationships and advancement

## Attract, engage, support, delight

From handling a prospective student inquiry to nurturing a lifelong relationship with alumni, track each interaction with your constituents to guide them at every stage of their journey.

## Richer data, better outcomes

The more you know, the more you can help. Compile complete institutional knowledge about your constituents so you can inform action plans and respond dynamically to their unique needs.

## Comprehensive, versatile, flexible

Start with what you need and grow at your own pace. Our built-in modules streamline admissions and enrollment, student success and outreach, or institutional advancement without a massive overhaul of your entire CRM implementation.

## Unlock the power of Microsoft Dynamics 365

We take Microsoft Dynamics 365 to the next level to provide schools with a lifecycle engagement solution optimized for higher education.

The power of Microsoft Dynamics and the ability provided by Content Blocks in Reach has let us create modified and personalized journeys. Content Blocks enables us to upload content – videos, images, and text – and then pull this content through so it can be used to personalize messages at a much deeper and more exciting level.”

**Dr. Ahmed El-Haggan**

VP of IT & IA, CIO and Professor of Computer Science | Coppin State University

By selecting a modern, cloud-based CRM, we are providing our staff and faculty access to analytics and enhanced student journey insights that will enable data-driven decision making and timely communications.”

**Justin Ralph**

Chief Technology Officer | Royal College of Surgeons in Ireland
