

anthology. Succeed

Part of Anthology® Reach

Reach new heights with the power to manage student success all in one place

Support students at every stage of their learning journey with tools and insights that let your team save time and intervene effectively.

Empower advisors and counselors

A workspace to keep your students' information organized, track interactions and alerts, and manage student insights and experiences in one place, helping prioritize students that need help the most.

"Student at risk" alerts

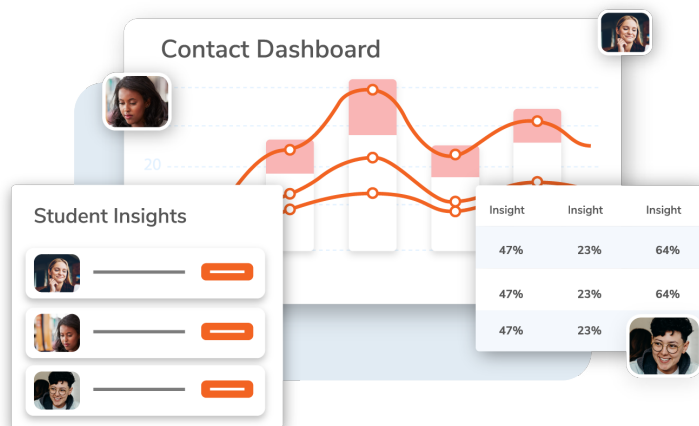

Student surveys and outreach

Success plans and networks

Academic information

Richer data, better outcomes

Gain a comprehensive view of each student's experience to build a better retention and success strategy with centralized, updated information and prescriptive actions.

Student success takes a village

Create success networks by bringing together faculty, advisors, and services across campus to work collaboratively on a personalized plan to help students stay on track for success.

“ According to Inside Higher Ed, advisors managing heavy caseloads struggle to provide individualized attention and implement new strategies. With the average being over 150 students per advisor, it’s crucial to have solutions that help them be more effective.

Sara Weissman, “Narrowing the Gap”, Inside Higher Ed, July 2022

Keep students informed and involved

Organized workflows from staff and faculty benefit students by clearly communicating about their personalized academic journey, helping bolster their engagement.

Unlock the power of Microsoft Dynamics 365

We take Microsoft Dynamics 365 to the next level to provide schools with a solution that empowers them with higher ed-specific functionality that has a meaningful impact on retention and student success.

“ The power of Microsoft Dynamics and the ability provided by Content Blocks in Reach has let us create modified and personalized journeys. Content Blocks enables us to upload content – videos, images, and text – and then pull this content through so it can be used to personalize messages at a much deeper and more exciting level.”

Dr. Ahmed El-Haggan

VP of IT & IA, CIO and Professor of Computer Science | Coppin State University

“ By selecting a modern, cloud-based CRM, we are providing our staff and faculty access to analytics and enhanced student journey insights that will enable data-driven decision making and timely communications.”

Justin Ralph

Chief Technology Officer | Royal College of Surgeons in Ireland

- Extend your advisors' Reach so they can help more students Succeed.
