

There's more to Learn

Powered by a community of millions of students, instructors, and administrators across more than 70 countries, Blackboard Learn by Anthology is the Learning Management System that responds to your needs. With modern, intuitive workflows and hundreds of new features, it's time to take another look at Learn.

Exclusively inclusive

No two learners or instructors are the same. We've created an inclusive LMS that combines consistency of experience with tools that allow users to express — and celebrate — their unique identity.

Best tests = less stress

With the best-in-class test-taking experience, Blackboard Learn is designed to reduce student stress and anxiety, while also extending more flexible design options to instructors.

Market-leading communication tools

Deliver the interactive learning experience that modern students demand. Blackboard Learn has market-leading communication tools to foster collaboration and seamless integrations with more than 200 tech partners — including Microsoft Office — to create a holistic, engaging learning environment.

“ [Blackboard Learn] is a place where we have really great discussions. I just think it’s a great support to the work we do in the classroom. So, it definitely makes life much easier for myself and the students.”

Angela Bullock
Program Director for the Social Work Program, Associate Professor

92%

of users are satisfied with Blackboard Learn and will likely continue using the brand.*

Data you don’t have to dig for

Blackboard Learn provides in-line insights direct to instructors, students, and advisors at every step in the learning journey. This creates a data-informed approach to education, where courses, content, and delivery can be constantly optimized to help every student achieve their goals.

“ With Blackboard Learn Ultra, we’ve had some massive increases in student success ... it helps with our student retention, our student success, and satisfaction with our programs altogether.”

Lee McMinn
LMS Administrator and Instructional Designer

Up to 35%

growth in successful grades

Easier grading, more teaching

We’ve collaborated with educators to create grading workflows that align with instructors’ needs, saving time and allowing you to focus on what’s most important: teaching.

“ We’ve been really impressed with the amount of features that have been released lately. Our faculty and students have been most impressed with the gradebook improvements, testing features, and the assignment features.”

Chelsey Turner
System Administrator

64%

of users rate Blackboard Learn 9 out of 10 or higher (versus 55% of Canvas users).*
