

# anthology. Finance & HCM

## World-class financial management for higher ed

Stay in control of the processes critical to sound fiscal management. Whether you're managing one campus or 100, this feature-rich tool brings together finance and human capital management.

### Key Capabilities:

Faculty and human capital management, contracts, and administration

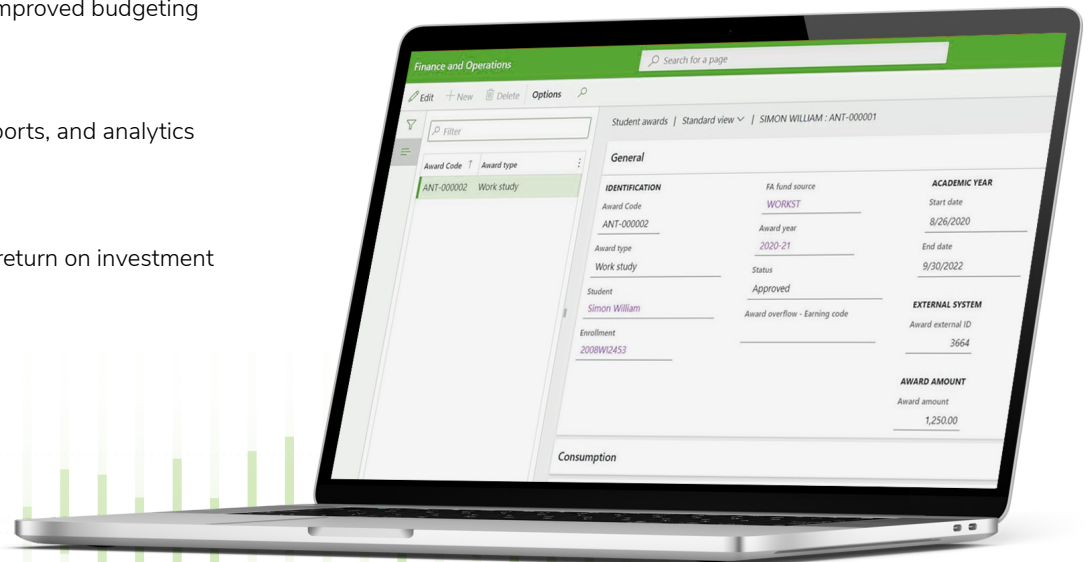

Position control and improved budgeting

Data visualization, reports, and analytics

Faculty and program return on investment

## Lead with world-class technology

Built on a state-of-the-art finance system by Microsoft and optimized for higher education, you'll never again wonder if you need an upgrade to complete the task in front of you.

## Deep and diverse student knowledge

Gather full institutional knowledge about an individual so you can compile an action plan and respond to their needs.

## Efficiency is key

Keep your team streamlined and on track with tight campus system integrations to allow for smooth operations and real-time data analysis.

## People remain your greatest asset

Ensure you provide your greatest assets — the faculty, staff, and administrators — with the resources they need to improve workforce functions in HR, payroll, talent acquisition, and more using stronger data visibility.

## Anthology Finance & HCM in Action

“With our new billing system, we are able to process over 9,000 students in 30 minutes.”
